BOARD ASSAILS PRISON SYSTEM

Scathing Observations in Report of Charities and Corrections.

RELICS OF COLONIES.

Not a Single Reformatory Feature—Says State Should Own Such Institutions Outright.

Richmond, Va. Nov. 29.—The jail system of Virginia does not contain a single reformatory feature, but, on the other hand, presents a pressing social problem in the education of several thousand young criminals every year, according to the annual reoprt of the State Board of Charities and Corrections, which was forwarded to the public printer yesterday. The system is described as a relic of Colonial days, some of its features going back to prehistoric times. The average county or city jail is described as a "barbarous institution invented primarily as an instrument of torture to meet the desperate conditions of unsettled ages." The Virginia jail system," the report says, "does not contain a single reformatory feature, but, on the other hand, serves to train criminals for life. When a young man enters a jail, even for the most trivial offense, the chances are four to one that he will return again and again for longer periods, until he winds up in the penitentiary."

As to reformatories, the board says it has come to the conclusion that it is unwise for the State to make appropriations to any institution except those that are under state control."

Improvements at the State penitentiary are marked, says the report. The new contract with the Star Company stipulates that no convict can be punished except on the order of the superintendent.

As to poor relief, the report says that the conditions of alms houses, a few exceptions, is not satisfactory and in most cases there is not adequate custodial care of paupers. Almshouses on the cottage plan have generally been found more satisfactory than those where all the inmates are congregated in one building, as in Richmond. Many counties, the report says, continue in violation of the law, to let paupers out by contract to the lowest bidder, a practice which the report says is objectionable from every point of view.

Social needs of the State are outlined as follows:

1. State ownership and control of the three juvenile reformatories and an industrial school opened for delinquent colored girls.

2. A law defining feeble mindedness and enlarging the colony authorized by the last General Assembly.

3. A sanitorium for colored tuberculosis patients.

4. An institution for the care and treatment of inebriates.

5. Aid for indigent women and children whose husbands or fathers are in prison.

6. Law sending to the road force all men imprisoned for more than sixty days, including those confined for non payment of fines.

7. Provision to pay convicts working on the public roads 5 cents per day each.

8. An act requiring men in convict road forces to work nine instead of ten hours per day.

9. An act repealing present parole law, which is not effective and in lieu thereof, giving all felons ten days per month for good behaviour.

10. A law permitting courts to release men who are unable to pay fines and requiring them to go to work and to pay such fines and the court expense in small instalments.

WANTED—Girls to work on winding, doubling and spinning. New hands paid $3.50 per week; experienced hands, $4.50 to $7.00 per week. Apply at Mats Silk Mill corner Pitt and Wilkes street.

NEWS OF THE DAY.

When the mail arrived yesterday at New Lexington, Ohio, morning postoffice employes were surprised to find in it an 8-year-old girl, bearing a tag which had been placed on her by New York immigration officials, reading as follows: "This child, Julia Kohan, is going to her father, John Kohan, Box 117, R. F. D., No. 4, New Lexington, Ohio. After a breakfast supplied by the postmaster, the child was taken in care of a rural delivery carrier to the home of her father. The trip of 7,000 miles from Bavaria was made by her alone.

With undreds of persons looking on, a thief smashed the window of E. F. Kaelin's jewelry store on one of the main thoroughfares shortly after noon yesterday, grabbed a tray of diamonds and escaped. The jewels are valued at $2,000. The man was followed for several blocks by a crowd, but escaped.

The deer shooting season in Wisconsin and northern Michigan still has several days to go, but the death roll has been the greatest—among sportsmen—on record. The casualty list shows a total of 22 Wisconsin hunters killed and 23 injured, and the total for Michigan is 9 killed and 12 injured.

As the result of being struck with a club by a negro, named Hall Thursday night, Raymond Davis, a farmer, aged 27, living at Whiton, near Salisbury, Md., was brought to the Peninsula General Hospital, where he died. Davis, accompanied by his cousin, Grover Davis, were returning from Berlin in an automobile, when about three miles from town, they met Hall, whom they stopped and asked for a match. An argument ensued and soon a fight was started in which Hall, it is alleged, picked up a large club by the roadside and struck Rayne's skull. The negro was apprehended and lodged in Snow Hill jail. The dead man left a wife and two small children.

COMMISSIONER WILSON RESIGNS

Highway Official Accepts Appointment in Federal . . . . Road Bureau.

COLEMAN TO SUCCEED

Department Has Built Over Two Thousand Miles of Road in Virginia in Seven Years.

Richmond, Nov. 29.—P. St. Julien Wilson, who has held the office of State Highway Commissioner of Virginia since it was created in 1906, forwarded his resignation yesterday to Governor Mann to take effect on December 15. He will be succeeded by George P. Coleman, of Williamsburg, Assistant Highway Commissioner. Mr. Wilson resigned to become assistant director of public roads, in the Department of Agriculture, under Logan Waller Page, a son of the late Major Legh R. Page, of Richmond, the government director of public roads, and in his new position will have general supervision of engineering work. His headquarters will be in Washington, and as the bureau is now organized he will have under him about sixty engineers of all grades, in charge of work throughout this country, besides the clerical force and laboratory employes.

Road building by the Federal government is comparatively a new departure. The last session of Congress made the first general appropriation, setting apart $500,000. Not less [illegible] be provided during the next year. All of the work receiving government aid is under supervision of the director of public roads, besides the large number of roads built directly by the government leading to Federal reservations, national cemeteries and for various other purposes.

During Mr. Wilson's administration as Highway Commissinoer 2,030 miles of improved roads have been constructed in Virginia. The State has appropriated for work, including the support of convicts in camp, approximately $1,750,000. Bonds have been issued in thirty-two counties aggregating $6,364,000, not all of which has yet been expended, for the development of public roads on a comprehensive plan.

Of the 100 counties in the State there are only three that have not at one period or another taken advantage of the State aid offer by putting up dollar for dollar with the State appropriation, which is available either in money or in the work of convicts.

Mr. Wilson has been an active promoter of the Richmond-Washington Highway, having worked in close harmony with the association promoting that project in making the surveys and in directing the efforts of the counties through which the road will run.

F. L. Maddux, outside guard.

MOVING ON THE MEXICAN CAPITAL

Constitutional Forces Are Headed Toward Mexico City.

ALTATA BOMBARDED.

Crisis Believed to be Imminent When Huerta Demands Funds From The Bankers to Pay Debt.

Washington, Nov. 29.—Army officers in Washington are of the opinion that the fall of Mexico City and the Huerta government is now but a question of time. But one important city remans for the rebels to capture before the begin their march on the capital. That city is Chihuahua and the rebels are now investing it with all the available troops at their command. Villa says the city will fall within two weeks. Chief among the attacking forces are the rebel veterans who captured Juarez and put to flight some of the strongest regiments in Huerta's army.

Because of a story that has been called to the attenton of Solctor Folk today, it is almost certain that the State Department will order the release of Gen. Jose Santos Zelaya, the former president and dictator of Nicaragua.

According to the story which seems to be backed by convincing proof, it is the present endeavor on the part of the Nicaraguan government to obtain possesion of Zelaya in order to put him to death and avoid possibe complications in connection with the proposed $200,000 loan issue by that government.

Mexico City, Nov 29.—The rebels have had another important success. Word reached the capital that Mazatalan one of the principal ports of the west cvoast, fell into the hands of the insurrectos yesterday.

The federal gunboat Tampico bombarded the rebel force occupying Altata in the state of Sinalao, according to letters from officers on the war ships. They say that the town was practically razed but that the rebels still hold it, despite heavy losses.

It is said that the Tampico has been joined by the gunboat Guerro and that the cannonading will be continued.

COMMITTEE MEETING.

Planning More Equitable System of State Assessment.

As had been announced, the special committee appointed some time ago by the Chamber of Comerce for the purpose of planning legislation looking toward obtaining a more equitable plan of State assessment held a meeting yesterday afternoon at 4 o'clock at the rooms of the Chamber of Commerce. After an informal discussion an adjournment was taken until December 3 next, when there will be a full meeting of the Chamber of Commerce in order that all may express their opinions on the matter.

At this meeting the plan segregating the subect of taxation, as presented by C. Lee Moore, State auditor, will be considered.

It is expected that some definite line of action will be taken, and the special committee will be directed to co-operate with the Richmond Chamber of Commerce and other similar organizations. During the coming month a meeting will be held in Richmond, when a definite plan will be adopted, and submitted at the coming session of the legislature.

The special committee is composed of J. William May, chairman; W. A. Smoot, Jr., C. T. S. Burke, G. L. Boothe, and G. D. Hopkins.

Several months ago the local chamber of Commerce obtained data regarding the alleged inequitable plan of State assessment. Among other things it was shown that the burden of State taxation is borne by twenty-nine counties and nineteen cities, while seventy-one counties are a loss to the State of Virginia to the extent of $592,268.37.

CASE CONTINUED.

At the request of Commonwealth's Attorney S. G. Brent, the investigation of the charges against certain parties alleged to have had in their possession sundry articles stolen from railroad cars has been continued until Saturday, December 6th, at which time it will be called in the police court.

ARMY AND NAVY ON THE GRIDIRON

President, Admirals and Generals to Witness Football Game.

40,000 ARE EXPECTED.

Gold Lace in Evidence—Drizzle of Rain During Night Which Continued Early Today.

New York, Nov. 29.—President Wilson, two score active and retired admirals and generals, and more than 40,000 others who planned to witness the annual clash between the Army and Navy on the gridiron, were threatened with drenching today. If the middies from Annapolis are able to apply some of their deep-sea knowledge in a football game the prospects are more than bright for them, as every indication promised wet grounds at the Polo Grounds this afternoon. A drizzle of rain fell throughout the night and continued during the early part of the day.

Not in years has New York seen as much gold lace as was on display about the hotels today. High officers of the army and the navy were to be found in every big hotel.

The navy team being quartered at the Hotel Vanderbilt, leaders of Uncle Sam's sea-fighting forces flocked there during the morning. At the Astor, where the huskies from West Point were being cared for, there was an equally brilliant assemblage. Betting on the game favored the middies, but with the wet weather, which promised to make the playing field uncertain, the army supporters believed the followers of the Mule might have a chance.

This is the first time the big game between the tdwo government service schools have been played in New York, with the President members of the Cabinet, representatives of foreign nations and other high officials in the stands, and a great turnout of society assured, the most brilliant sporting event ever staged here was promised.

ELOPE TO ALEXANDRIA.

Latest to Bring Back Husband Instead Turns Thanksgiving to Wedding Feast.

Baltimore, Nov. 29.—To have three of his daughters elope within the past year is the unique experience of Dr. John McCarthy, a well-known Baltimore physician.

At the Thanksgiving dinner Thursday, Gertrude, the third to elope, made the announcemnt to the family that she had been married November 18th to William O'Neil, who was at the table, and when the father and mother recovered from the shock they gave their blessing and the Thanksgiving dinner was turned into a wedding feast.

There are two more daughters in the family, and Mrs. McCarthy, the mother, said she would not be surprised if they did the same thing." All three of the brides left their home saying they were going to buy a pair of gloves, but in each case they returned with a husband instead.

Mr. and Mrs. O'Neil were married in Alexandria, Va. The groom is a senior year student at the dental scnool of University of Maryland, and until he graduates the couple will make their home with the bride's parents.

November 23, 1912, Miss Isabell McCarthy left her home with James Graham Owens to purchase a pair of gloves. They went to Washington and were married. Following precedent of her older sister, Miss Grace McCarthy left one day last July to get a pair of gloves. They were not to be new gloves, but a pair she was having cleaned. She returned with James Raymond Brennan as her husband.

TO REPRODUCE SERVICES

Scenes in Christ Church One Hundred and Thirty Years Ago to Be Re-enacted

In commemoration of a solemn service held in Christ Church, of this city, one hundred and thirty years ago, which celebrated the final departure of the British forces from the shores of the United States, an exact replica service, will be held in the same building on Sunday afternoon December 7th at 3:30 o'clock under the auspices of the Alexandria committee of the Colonial Dames of America in Virginia. The occasion will be graced by the presence of Mrs. William Ruffin Cox, of Richmond, president of the National Society of the Colonial Dames of America. Invitations have been sent out to branches of the society throughout the State, to chapters of the Daughters of the American Revolution and to the Sons of the American Revolution, the Cincinnati and other patriotic societies. President and Mrs. Wilson have been invited to be present and the gathering promises to be one of unusual prominence.

The original service was held on December 7th, 1783 by the Rev. Dr. David Griffith, rector of the church. From old prints and descriptions the church will be decorated in the same manner on December 7th, as it was at the time of the original service. The pulpit, lectern and communion table will be garlanded with flowers and evergreens. Over the pulpit a white dove will be hung and on the walls will be texts, the letters to be made from evergreens.

The same texts, psalms and anthems as were used in the first service will be used on Sunday, the complete program being as follows: Anthem, "Come Thou Almighty King;" solo, "The Lord is my Shepherd," Mrs. Sherman Fowler; lesson; solo, "Open to me the gates," Mrs. De Dier; anthem, from psalm 68, Mrs. Robert F. Downham and Kenneth Ogden; solo, "Rock of Ages, Richard Wirt; address by the rector, the Rev. William J. Morton, from the text, "Yea thou shalt see thy children's children and peace upon Israel;" quartette, "Sing Alleluia," Mrs. Downham, Mrs. O'Brien, Kenneth Ogden and Geo. H. Varney, commissioner in bankruptcy, yesterday afternoon to consider several offers made for the purchase of the plant, machinery, and other effects of the defunct concern. Nothing definite was done. Some of the creditors were represented by Attorneys Eugene B. Taylor and G. W. Lewis, and the company by Attorney S. G. Brent.

RED CROSS SEALS

Anti-Tuberculosis Society Places Them on Sale to Aid Instructive Visiting Nurse

For the fourth time the Alexandria Anti-Tuberculosis Society is placing the Red Cross seals on sale in Alexandria, the proceeds of the sale going to the support of the instructive visiting nurse, which splendid work of the society, is now in its third year.

Sickness has, during the past year, visited many of the homes of the well-to-do in Alexandria. Do you who have been able to give to your loved ones, every care and attention, realize the conditions in the sick rooms in other homes, which would go unalleviated, if it were not for the visits of the visiting nurse. Maybe it is the father of the family, the breadwinner is sick with typhoid fever, a disease in which nursing is of the utmost importance. The nurse calls every day, or twice a day, bathes and cares for the sick man and becomes a powerful factor in restoring this breadwinner to the family, instructs the wife how to prevent infection of the family, teaches how typhoid is contracted and may be avoided.

Professor Winslow says "Some of the missionaries of sanitation will be physicians, but most of them will be nurses. And that is why in my judgment the visiting nurse is the most important figure in the modern movement for the protection of the public health."

There seems to be no form of modern philanthropic effort which is at the same time so appealing and so rewarding as the visiting nurse, and the city needs her and wants to keep her. The seals are only the intermediaries to put into operation the wish of the community that nursing care be given to the sick and unfortunate of the community and so they can only hold out their hands to the generous people of Alexandria and say, "If you wish this work to be done, please give us now the means."

WARNING FROM POLICE COURT.

Gambling for Cakes Declared Violation of State Lottery Laws.

The only case before the Police Court this morning was that of a baker of this city who had been cited by Officer Miller to appear to answer the charge of conducting gambling. The device consists of cards upon which numbers are obscured by tissue paper, and those who take chances give the name of their "best girls" and remove the tissue paper from the numbers. If they strike the winning figures they receive a five-pound cake at a cost of from one to fourteen cents.

Justice Caton called attention to the fact that this species of gambling had been in vogue during the holiday season during the past four years. He declared it to be an infraction of the laws against lotteries, and announced that while he would not impose a fine in this instance, he wanted it understood that should the police bring such cases before him in the future he would impose a severe penalty, one which would make parties interested remember the law in future.

The mere mention of the word Diamond brings to mind ideas of something that has ever been most valuable. It possesses in an unusual degree, the power to reflect and disperse rays of light which is the cause of its beautiful brilliancy and alluring play of colors.

When Selecting a Diamond

you must take into consideration, color, freedom from flaws and general brilliancy, each of these qualities has a distinct bearing upon the question of value. Suffolk Man Struck by Car, Dies in Hospital.

Norfolk, Va., Nov. 29.—The body of W. E. Winstead, who died in St. Vincent's Hospital, Thursday night, from injuries received when he was struck by a car of the Virginia Railway and oPwer Company at Brown and Reeves avenue, was conveyed to his late home in Suffolk yesterday afternoon.

In the Police Court yesterday the cases of P. D Evans, motorman, and Thomas Gallop, conductor, charged with recklessly running a car over Mr. Winstead and causnig his death, were continued by Justice Barron until December 3. Both men were released on bond for their appearance in court on that day.

Mr. Winstead came to Norfolk Thursday with a number of friends. About 7 o'clock in the evening he was struck and injured by a car on the Berkley division of the Virginia Railway and Power Company at Brown and Reeves Avenue and when examined at St. Vincent's Hospital, where he was sent immediately after the accident, it was found that he was suffering from compound fracture of the skull, dislocation of the right hip, and foot, and badly crushed toe.

INTERESTING CEREMONY.

Granddaughter of Lee Unveils Tablet on Richmond Post Office.

Richmond, Va., Nov. 29.—A tablet to commemorate the fact that the site of the present Federal building was the office of the President of the Confederate States and also of the secretary of the treasury from 1861 to 1865 was unveiled yesterday afternoon. The memorial was erected by the Confederate Memorial Literary Society and the unveiling ceremonies were in the hands of that organization. A portion of the historic old building was incorporated in the new federal building when it was rebult, and it is in this older section that the bronze tablet has been fixed. The consent of the secretary of the treasury, Wm. G. McAdoo, was obtained for the placing of the tablet.

Little May Custis Lee, 12 years old, granddaughter of General Robert E. Lee, drew the veil. She was accompanied by her mother, Mrs. Robert E. Lee, of White House, Va., and by her aunt, Mrs. W. H. F. Lee, of "Ravenswood."

The ceremonies were opened with a prayer by Chaplain Dr. J. P. Smith. Mayor George Ainslie introduced Edward P. Cox, who made the address. As the tablet was unveiled Weitzel's choir sang "Dixie" and "Auld Lang Syne."

Mother's Fatal Mistake.

Staunton, Va., Nov. 29.—Mrs. Chas. Morris, 20 years old, wife of a young farmer living near Weyer's Cave, drank carbolic acid by mistake Wednesday evening and died shortly afterwards in great agony. She said she thought she was taking brandy as a stimulant.

EDUCATORS AT LYNCHBURG.

Chief Interest in Co-operative Education Association.

Lynchburg, Va. Nov. 29.—With numerous departmental associations in conference yesterday, the chief interest of the forenoon is in the Co-operative Education Association of Virginia, which is being presided over by Mrs. B. B. Munford, of Richmond.

Mrs. B. B. Dashiell, director of the Citizen League, made her annual report of good work done last year.

The meeting was addressed by Superintendent E. G. Tankard, of Northampton; Miss Mary Wilke, of Montpelier High Schol, and Superintendent Dickenson, of Cumberland county.

"Junior Improvement League Work" was discussed by Dr. Beach, of Luray, and Miss Ella Agnew, "Character Building" was the subject of an address made by Rev. Edwin R. Carter, of Hampton.

J. H. Binford spoke on the school as a neighborhood center.

The Rural Teachers' Association adopted resolutions memorializing the Legislature to improve school conditions in mountain sections and destitute districts, and that the minimum salaries for any teacher be fixed by statute at $50 a month, and the terms of school not less than eight months.

WALLER HAS OPPONENT.

James E. Mahoney Would be Commandant of Military Corps.

Washington ,Nov. 29.—Colonel Jas. E. Mahoney in charge of the marine barracks at Norfolk, it is learned, has filed his application with the Secretary of Navy for appointment as commandant of the United States Marine Corps, for which a vigorous fight is being waged by the Virginia delegation in behalf of Col. Littleton W. T. Waller.

Members of the Virginia delegation went to the Navy Department and insisted upon a decision, no matter how tentative, be withheld until Col. Waller could reach Washington and his friends could prepare his defense of the Samar campaign.

Secretary Daniels intimated to the Louisianians who called upon him that he did not care to go below the rank of colonel to pick his man to be recommended to the President for appointment as commander-in-chief of the Marine Corps.

Norfolk, Va., Nov. 29.—Jockey Edward Ambrose was perhaps fatally injured Thursday evening on the Jamestown Boulevard while en route to the race track.

He was riding a motorcycle, and the road being congested with traffic at the time, he collided with a wagon. When picked up he was unconscious. His condition is critical.

Jockey Ambrose was suspended some days ago, and was to have been reinstated Thursday. He is regarded as one of the most promising boys now riding on this side of the Atlantic.

PREPARATIONS FOR INTERESTING EVENT.

The Colonial Dames of Virginia are planning commemoration services in historic Christ Church tomorrow week which will appeal not only to Alexandrians, but to people throughout the entire country.

It will have been on that date one hundred and thirty years since the red coats of George the Third, threw up the sponge, virtually recognizing the independence of the United States, and having gathered bag and baggage they left for England Some of the more defiant minions of the British King nailed their flag to a greased pole in Boston and the men-of-war in sailing out of the harbor saluted it, while some of the more desperate type cried back to our forefathers, "Never mind, we'll get you yet."

The object of the Colonial Dames is to hold exact replica services in old Christ Church on that day There is no edifice in the country more appropriate for such a service, not even Independence Hall in Philadelphia Christ Church yard played a most conspicuous part in the conception of the United States before freedom's bells pealed forth It was in this sacred enclosure where Washington met men who became fathers of the great nation under whose sheltering wings over ninety millions of souls and gather in the twentieth century.

In colonial days customs were different from those of our time. People did not rush out of church and scatter immediately towards the different points of the compass. They moved out slowly, greeting one another and often hours were consumed in the church yard by attendants in exchanging views on different subjects apart from the theme of the preacher. Washington worshipped regularly in Christ Church, and he was generally the central figure in the minglings after service. The mutterings of the coming storm racked the souls of many at that time, and Washington was looked upon as an oracle concerning coming events. It was, indeed, in Christ Church yard where the nation was eventually conceived by Washington and his coadjutors after it had become apparent that the British King was not likely to do anything towards the relief of the colonies.

The original service, conducted by Rev. David Griffith, upon the retirement of the British soldiers from the United States will be reproduced as nearly as possible, and an interesting occasion is anticipated. The full program will be found elsewhere in the Gazette.

DEAD A PREY FOR BEASTS.

Dispatches from El Paso, Tex., say that Coyotes have attacked the graves of Mexican federal and rebel soldiers who were killed at Tierra Blanca in the battle this week and buried on the battlefield. In another place, the wind had blown away the thin layer of sand which had been thrown over the bodies in the guise of burying them.

Modern horrors are of the same nature as those which have appalled people of all ages. The thrilling descriptions of the terrible fate of half million men who perished in the retreat of the French from Russia under the first Napoleon are probably the most serious which have been published in the history of the world. Wolves, dogs and buzzards devoured the dead on that occasion.

Similar scenes, it appears, are being enacted on the North American continent in the twentieth century.

INCREASE OF DEATHS ON THE RAIL.

The Interstate Commerce Commissioner's accident bulletin issued for the quarter ending June 30, 1913, shows that as compared with returns of the corresponding quarter of 1912 there was a total increase of 140 in the number of persons killed, and of 8,283 in the number injured in railroad accidents of all kinds in the United States. There was an increase of 124 in the number of train accidents.

Defective roadway and defective equipment together caused more than 69 per cent of all derailments reported, 15.1 per cent. being caused by broken rails.

The total number of casualties in all classes of accidents to railroads during the quarter was 2,535 killed and 49,911 injured. Of these totals 2,286 were killed and 15,868 injured in other train accidents, including accidents to employes while at work, passengers getting on or off cars and to trespassers.

The total number of collisions and derailments reported for the quarter was 3,596, of which one hundred and forty-eight collisions and two hundred and two derailments affected passenger trains.

The financial damage caused by the accidents was $3,234,289, a material increase over the returns for the corresponding quarter of 1912.

These figures are appalling, and show that notwithstanding the introduction of steel cars, air brakes wireless telegraphy and the many other devices to minimize railwsy accidents, the number of such horrors is increasing.

COURT REVERSES ITSELF.

Holds That the Decision Against C. & O. in Cattle Shipment Was Wrong.

Richmond, Va., Nov. 29.—The Supreme Court of Virginia yesterday went on record as reversing itself.

In November of last year there was appealed from the Circuit Court of Staunton the case of the Chesapeake and Ohio Railroad against Ruckman. The case grew out of a shipment of cattle by Ruckman to Jersey City. The contract was a "special" affair, "fast day." The cattle did not reach destination in time, and Ruckman brought suit for damages. The award was for $945.41.

From this decision the railroad appealed, but the court sustained the verdict of the court below. A motion to rehear was filed by the railroad. This was granted, and the case was argued a second time in Staunton last September.

The attention of the court was called to a similar case, which had been heard in the Supreme Court of the United States—the Chicago and Alton Railway against Kirby—in which the identical issues were raised, that court holding that a "special" contract for delivery at a specified time was illegal and not enforceable.

Based on that decision, the Virginia court today handed down a decision announcing that the court had reversed its former ruling. There was no opinion in the case. Judge Harrison wrote the opinion in the first case, and from that the court today entered an order reversing the first opinion. There was no dissent.

YOUR HAIR IS TURNING GREY AND IT MAKES YOU LOOK OLD

This is Not the Time When Old Age is to be Desired

TO KEEP POPULAR KEEP YOUR APPEARANCE OF YOUTH

A young man was surprised to have his application for a position "turned down." He was better equipped for the position than the fellow who got it. He discovered that his grey hairs did it. He was "too old" looking. It's the same everywhere. There is no doubt but that grey hair does make a man look old. There is no use waiting another minute—don't lose your position or fail in getting a better one because you are old looking—use Hay's Hair Health now.

Those who are using Hay's Hair Health recommend it to their friends because it is genuinely good, always restores grey hair to its natural color, destroys dandruff, keeps the scalp clean and healthy. You begin to note the difference at once. The few grey hairs disappear and never return.

Why look old when you are young? Get a bottle of Hay's Hair Health at once, start using it and see what a difference a few applications make.

THE CAMERON CLUB.

Preparations for Work on New Lines in Addition to Other Features Planned.

The Cameron Club, at its recent meeting, perfected arrangements begun early in the summer for work on new lines in addition to its regular work. The vote to broaden its field of labor and engage in more vital human work in connection with the most excellent programs prepared by its committees on history, literature, music and current events, was carried unanimously.

The club thinks one of the most pressing necessities in the city today is medical inspection of schools. The Anti-tuberculosis Society has successfully put a nurse in the city assisting instructive nurse, whose duty is to visit the poor in their homes—especially tuberculosis, and such cases cannot be admitted into the hospital—and Alexandria has found her services indispensable. The free kindergarten takes care of the training of the tiny tots in the most formative period of life, when the bud of the human mind begins to unfold to the sunshine of music, rythm, and instruction which would be denied it by busy mother in the poorer homes. But neither of these noble works reach into the public schools.

In cities and towns it is well known that disease has been spread in schools—especially diseases of contagious and communicable nature. In some instances the schools have had to close. Long illness and death have resulted from disease contracted in this way.

The State maintains her schools at great cost, for the benefit of her wards, the boys and girls of today to become the men and women of tomorrow. In many instances these are whom the mother State hopes to educate, have some undiscovered defect of sight, hearing or other physical ailment or undeveloped physical condition which prevents them from taking the best of the opportunities afforded them. The purpose of the medical inspector and school nurse is to seek out such cases, find the defect and place the child in a position to have it remedied. If the child is poor and unable to secure the aid of a family physician (to whom he is first advised to go) or a specialist, the medical inspector and school nurse will put him in touch with the hospital and its capable staff who have offered to the Cameron Club to give their gratuituous services to such as have no money and need medical or surgical treatment.

The club expressed to the board of education its willingness to undertake the work for five months of this school year. The board most gratefully accepted their offer. Through the solicitation of the club, Dr. Llewellyn Powell has kindly offered to give his services as school medical inspector for that period of time and Miss Elton Bowling, assistant superintendent of the Alexandria Hospital, has been secured to give part of her time as assistant inspector or school nurse. Miss Bowling has been specially qualified for the work by taking a course of training in the Episcopal Eye, Ear and Throat Hospital, of Washington, also by spending some time with the school nurse and medical inspector in their work in the schools of Richmond, Va.

Miss Bowling's public service will be in the schools alone—not extend to the homes in any sense. The follow work will be done by the visiting nurse. Often children who fall behind in their grades are found on being examined by the nurse or inspector to have defective vision which has never been suspected by parent or teacher. This condition may be easily corrected by proper fitting of glasses or treatment of eyes and the pupil's mind made brighter and the world made larger by the clearing up of this defect. The nurse and doctor will have very little time in schools, but the club hopes this will be a step in the right direction and that the Board of Education may yet be able to put the schools permanently under medical inspection and school nursing.

Start the Day Warm With a PERFECTION SMOKELESS OIL HEATER

SLEEPING with the windows open is a "first aid" to health and beauty. But i makes getting up in the morning a chilly ordeal.

With a Perfection Smokeless Oil Heater you dress in comfort on the coldest day.

A touch of a match, and the Perfection is aglow in a minute. Later you can carry it to any other room, and breakfast, read or sew in comfort.

In fact, a Perfection Heater is just as good as a fire, and much cleaner and more convenient.

It is a handsome heater, too. Ask your dealer to show you a Perfection, or write for descriptive catalogue.

HIGH SCHOOL NOTES.

School Closes From Wednesday Afternoon Until Monday Morning.

The pupils of the school left Wednesday afternoon not to return until Monda ymorning, thus having holiday Thursday, Friday, Saturday and Sunday. The Third and Fourth years had holiday Wednesday also, Mr. Prettyman and Mr. Blanton being absent that day.

A former member of the class of 1916 has returned to school after a long absence.

The fourth year has finished the sketch maps on the War of 1812.

The Juniors originated the scheme of buying pictures to decorate their rooms. The Sophomores, however, did not like to be left behind, so they immediately went to work on the same plan. They now have 49 cents in their collection box for these pictures.

The second year have not received their class pins from Dieges and Clust as yet. They expect them some time next week.

The freshmen classes have painted several maps in their new outline books and taken down some outlines. Some of them are developing a taste for art, as is shown by their neat and well painted maps.

By this time the physiology class in the second year knows the function of the cerebrum,as to being the seat of the mind. Every time they have been asked before this, they replied thinking. When asked what thinking was, they did not know. Now, however, after it having been drilled into their heads for several days, they know that the only two functions are memory and reason.

All of the first year classes have completed the work on the period of Greek colonization, and have had an outline in the same. When they come back to school Monday they will take up the study of Athens, or the Athenian state.

The sophomores had a history test Wednesday on the Crusades. An outline on the subject had been given the class by Miss Ficklin, and some good marks ought to be made.

Mr. Johnson taught Latin and Physiology in the second year Wednesday in the absence of Messrs. Blanton and Ruppenar.

Girls' basketball practice has been suspended indefinitely as they cannot secure the armory.

Two of the freshmen classes had a grammar test Wednesday, the other two classes had it Tuesday, they being a day ahead of the other classes in grammar.

The sophomores did not go through the nervous system quite as rapidly as was expected. They finished it Wednesday. That part being the most difficult to learn, they could not be expected to grasp it as easily. Now that they are through it, they will be able to go on a little more swiftly.

The freshmen have finished half of their physical geography. The term is divided into six sx-week periods. The classes in physical geography take half of that subject in the first two six-weeks and a review of that half in the third period. With the other half of the subject they do the same.

Next year the second year English class will commence work on Ivanhoe. The class is supposed to have finished it during the Thanksgiving holidays.

The juniors and seniors did not have much work to do this week, having holiday all the week except two days. Lucky dogs!

The senior class have finished the study of the Revolution and the War of 1812 in U. S. History. They are going over it rapidly.

MURDER MYSTERY CLEARED UP

Alie Carter, a Negro Woman, Confesses to Have Had Part in Killing.

Eureka Mills, Va., Nov. 29.—Willie Rose and Allie Carter, the negro man and woman recently arrested in Roanoke for the murder of Sam Morton, an aged negro, were brought here Thursday by Sheriff Priddy, given a preliminary hearing and placed in jail.

The woman confessed to Sheriff Priddy that she hit the murdered man with a hammer, but did not intend to kill him, and that a man helped her bring him to the gully in which he was found. She refused to name her accomplice, but there is strong circumstantial evidence to convict Willie Rose of the murder. The prisoners were taken to Fincastle for confinement.

NOTICE.

Instruction in Art, with special advantages in China Painting, also in Elocution and Physical Culture,is given every Friday in St Mary's Academy. Pupils not attending the school may enroll for class or private lessons.

Terms moderate.

This specialization is the real reason for the excellent standing of the Temple School among business men of Washington.
